

CPE Monitor Service

The National Association of Boards of Pharmacy (NABP), in collaboration with the Accreditation Council for Pharmacy Education (ACPE), has now launched the CPE Monitor service, a continuing pharmacy education (CPE) electronic tracking system.

- Pharmacists and pharmacy technicians are now able to set up an NABP e-Profile through the NABP website and obtain their permanent identification number, or NABP e-Profile ID.
- Beginning in the latter part of 2011, all pharmacists and technicians will be able to provide their NABP e-Profile ID, plus their birth day (MMDD), in order to receive credit for CPE activities taken from ACPE-accredited providers.
- To set up an e-Profile, pharmacists and technicians can visit the CPE Monitor web page, which is accessible at **www.MyCPEmonitor.net**. NABP and ACPE will work with CPE providers to ensure an adequate amount of time is allotted to implement this new service.
- ACPE will continue to assist ACPE-accredited providers through educational webinars and toolkits to prepare their systems and can be found on the ACPE website, www.acpe-accredit.org
- The CPE Monitor service will provide participating state boards of pharmacy with a streamlined process to verify their licensees' and registrants' compliance with CPE requirement. Boards of pharmacy that choose to participate in the service will receive reports on pharmacists' and technicians' completed ACPE-accredited CPE units, which will be authenticated and stored in the system. The program is expected to save boards of pharmacy, pharmacists, and technicians time and money in managing CPE-compliance activities.
