

## What do I need to do?

*(For Mac users, you can purchase the VPN Client at TSS (425 Frazer St.)*

- \* Connect to the Internet using your own Internet Service Provider (ISP).
- \* To connect to the UF network open the VPN Client icon. (See Fig. 1.1)
- \* The Contivity Wireless VPN Client screen will be displayed. (See Fig. 1.2)
- \* Make sure that the Connection is set to Extranet.
- \* Type your User Name and Password in the corresponding fields, using your UFnet account username and password. Click on Connect.
- \* Two windows will be displayed. (See Fig 1.3 and Fig 1.4) Click OK on both windows, and you will be connected to the wireless network.
