

Anticipated Course Offerings for 2009 – 2011

This chart provides information on the availability of computer science courses over a three-year period. Each box that meets at the intersection of a course row and semester column contains codes that describe how many sections will be offered and when those sections will be taught during the semester. See the **Chart Legend** for code meanings.

This is only a tentative schedule. Enrollment numbers, degree requirements and instructor availability can alter this schedule at any time.

- #D - number of day sections offered.
- #N - number of night sections offered.
- #L - number of online sections offered.
- #FW - number of fall weekend sections offered
- #WW - number of winter weekend sections offered.
- #SW - number of spring weekend sections offered.
- * - designates every other year class.
