Additional Information that NM Students May Find Helpful	
Easy access and driving in a small rural/country area.	
There are a lot of outdoor recreation, hiking swimming (canoeing, fishing, hunting.)	
If the student wants they can be active in the hospital decon team, and other Radiological programs put on by FEMA, PEMA, & DOE. I try to show the students once they graduate and pass their tests that the outside world has many opportunities. They can further the education in other related radiological fields.
