

# Student Learning Outcome Time Expectation Form (Independent/Directed Study)

It is the expectation students will need to complete a minimum of 2250 minutes (37.5 hours) of work for each semester hour earned. The work expectation may be satisfied with both in-class and out-of-class time. There is an approved amount of in-class time associated with the credit hour expectation. If a course does not meet all of the approved in-class time, it is required that an explanation of how the missed in-class time will be incorporated into the out-of-class time. The following chart must be completed to show how the minimum time expectation will be satisfied.

Course: \_\_\_\_\_  
*Number*
*Title*

Term(s): \_\_\_\_\_  
*Session and Year for Single Term Approval or Starting Session and Year for Continuous Approval Due to Program Expectations*

Total for in-class and out-of-class time (1 sem hr=37.5hrs; 2 sem hrs=75hrs; 3 sem hrs=112.5hrs; 4=150hrs)

Scheduled time in class (1 sem hr=750 minutes (m); 2 sem hrs=1500m; 3 sem hrs=2250m; 4=3000m): \_\_\_\_\_

Time outside of class (1 sem hr=1500 minutes (m); 2 sem hrs=3000m; 3 sem hrs=4500m; 4=6000m): \_\_\_\_\_

Learning Outcome(s)	Time Expectation

Total time expected to meet learning outcomes: \_\_\_\_\_  
(1 sem hr=2250 minutes (m); 2 sem hrs=4500m; 3 sem hrs=6750m; 4=9000m)
