The University of Findlay Occupational Therapy Program

AOTA FIELDWORK DATA FORM

Introduction:

The primary purpose of the Fieldwork Data Form is to summarize information regarding the program at a fieldwork site. Occupational therapy (OT) and occupational therapy assistant (OTA) students will find valuable information describing the characteristics of the fieldwork setting; the client population; commonly used assessments; interventions; and expectations and opportunities for students. The Fieldwork Data Form has been developed to reflect the *Occupational Therapy Practice Framework: Domain and Process, 3rd Edition* (American Occupational Therapy Association [AOTA], 2014) terminology and best practice in occupational therapy to promote quality fieldwork experiences. The data gathering processes used in completion of this form entails a collaborative effort that facilitates communication between OT and OTA academic programs, students, and fieldwork educators. This form may be completed by the combined efforts of the fieldwork educator, the OT or OTA student assigned to the site for fieldwork, and/or the Academic Fieldwork Coordinator (AFWC) from the program. Fieldwork sites are encouraged to update the form annually and provide a copy to the educational program(s) where they have a current memorandum of understanding (MOU).

The secondary purpose of the Fieldwork Data Form is to document the connection between the curriculum design of a given OT or OTA educational program with its fieldwork component. The AFWC will use the data entered on the form to document fieldwork related Accreditation Council for Occupational Therapy (ACOTE) Standards (ACOTE, 2012). The standards are outlined in Section C of the 2011 ACOTE standards and are denoted on the form. Educational programs can revise the form to suit the needs of their respective fieldwork programs.

The Fieldwork Data Form was developed through the joint efforts of the Commission on Education (COE) and the Academic Education (formerly Education) Special Interest Section Fieldwork Community of Practice with input from many dedicated AFWCs and fieldwork educators.

- **2.** Describe the fieldwork site agency stated mission or purpose (can be attached).
- OT Curriculum Design Integrated with Fieldwork Site (insert key OT academic curricular themes here) ACOTE Standards C.1.2, C.1.3, C.1.7, C.1.8, C.1.11, C.1.12
 - a. How are occupation-based needs evaluated and addressed in your OT program??
 - b. Describe how you seek to include client-centered OT practice. How do clients participate in goal setting and intervention activities?
 - c. Describe how psychosocial factors influence engagement in occupational therapy services.
 - d. Describe how you address clients' community-based needs in your setting.
- **4.** How do you incorporate evidence-based practice into interventions and decision making? Are FW students encouraged to provide evidence for their practice? *ACOTE Standards C.1.3, C.1.11*
- 5. Please describe the FW Program and how students fit into the program. Describe the progression of student supervision from novice to entry-level practitioner using direct supervision, co-treatment, and monitoring, as well as regular formal and informal supervisory meetings. Describe the fieldwork objectives, weekly fieldwork expectations, and record keeping of supervisory sessions conducted with student. Please mail a copy of the FW student objectives, weekly expectations for the Level II FW placement, dress code, and copy of an entry-level job description with essential job functions to the AFWC.

 ACOTE Standards C.1.1, C.1.2, C.1.3, C.1.4, C.1.8, C.1.9
- 6. Please describe the background of supervisors by attaching a list of practitioners who are FW educators including their academic program, degree, years of experience since initial certification, and years of experience supervising students) ACOTE Standards C.1.9, C.1.14, C.1.17, C.1.19

7.	escribe the training provided for OT staff for effective supervision of students (check all that apply). ACOTE Standards C.1.9, C.	1.15
