

April 13 Campus Update – Student Vaccine Clinics Paused

To the UF Community:

Given Governor DeWine's request this morning to pause administering the Johnson & Johnson vaccine, UF is canceling the student vaccination clinic scheduled for this Wednesday. Once permission is given to resume vaccinations, new times will be scheduled. For more information regarding this, please see the [Joint CDC and FDA Statement on Johnson & Johnson COVID-19 Vaccine](#).

Regards,

David Emsweller

Vice President for Student Affairs
