

April 26 Campus Update Regarding COVID Vaccine Clinics

Today, the Governor released updated guidance for higher education institutions regarding the Johnson & Johnson vaccine. Campuses may resume using the vaccine and are being asked to continue vaccinating students. Additionally, we are now also permitted to offer vaccinations to faculty and staff.

Given this, any UF student or employee may contact Cosiano at 419-434-4550 to schedule a time to receive a vaccination. For anyone scheduling an appointment, please read the attached updated fact sheet and complete the registration form provided in advance. Should you have questions, please contact Cosiano directly. Thank you.

Regards,

David Emsweller

Vice President for Student Affairs
