Policy for Pharmacy Students taking MBA/Health Informatics Courses

Pharmacy students (P4 and above) may take (if eligible) MBA or Health Informatics courses to augment his or her professional education.

Below are the conditions that apply:

At regular pharmacy tuition:

- A pharmacy student is eligible to take MBA or Health Informatics classes as electives during the P4 year and above during the regular academic year for pharmacy students and will pay Pharmacy tuition.

At MBA or Health Informatics tuition:

- A pharmacy student may take MBA or Health Informatics classes in addition to the regular cohort load required for Pharmacy students in a given semester and would pay the MBA or Health Informatics tuition for those MBA or Health Informatics credit hours that exceed 18 hours.

- A pharmacy student may take MBA or Health Informatics class/s during a semester in which Pharmacy classes are not required (eg. summer) and would pay the MBA or Health Informatics tuition.

Please note that the Joint Pharmacy/MBA/Health Informatics contract should be completed and submitted to the Business Office at least 2 Weeks prior to the beginning of the semester.
