College of Pharmacy Annual Golf Outing

[THERE IS STILL TIME TO REGISTER!!!](#)

Another academic year has quickly come to a close, and summer has just begun! Your support has played an integral role in making it a truly outstanding year. I would like to personally invite you to join all of us in the college for our 2nd Annual College of Pharmacy Golf Outing. The event is intended to support student scholarships and college initiatives, and should be a great time to simultaneously enjoy reconnecting with old friends and making new ones! The outing will be held at Hillcrest Golf Club, Findlay, Ohio beginning at 10am on

Fast Track into the Pharmaceutical Field

Only a year and a half after graduating from the University of Findlay, Farah Terrill, Pharm.D., '17 has been putting her doctorate of pharmacy to good use. As pharmacy director and junior regional director for Advanced Pharmaceutical Consultants, she now spends her days traveling to hospitals in Ohio, Michigan, and Indiana where she oversees management staff, ensures regulatory compliance and metrics are being met, and manages patient care services. AMCP Student Chapter

We are pleased to announce UF has developed an Academy of Managed Care Pharmacy (AMCP) student chapter to meet the needs of our students! This chapter became officially recognized by AMCP on February 20th 2019. The Mission of AMCP is simple – “To empower its members to serve society by using sound medication management principles and strategies to improve health care for all”. In line with this mission, the student chapter at the University of Findlay was founded to expose students to another practice setting and to show how managed care can fit into many aspects of pharmacy. Student Spotlight:

Building Bridges: Findlay faculty member works internationally to improve pharmacy education

Understanding and adapting to this rapidly changing world is critical for both personal and professional success. Chandra Sekar, Ph.D., a Findlay professor of pharmaceutical sciences and international ambassador for pharmacy education, strives every day to make that success available for people around the world. An advocate for bridging knowledge gaps between American and Indian pharmacy programs, Sekar works with universities on both continents to expose students to alternative practices and cultures. AKINMOLAYAN

Olunife Akinmolayan, affectionately known as "O" by his family and friends, will be a P3 student this fall. Originally from Aurora, Illinois he graduated from Waubonsie Valley High School. This fall "O" will be the President of the Student Government Association on campus. When asked why he said he chose the University of Findlay he said "for pharmacy of course, but I have been blessed to embark on many new experiences and adventures and I've met many new people with many enlightening perspectives." In his two years at the University of Findlay, he has truly been tested and rewarded. "The journey so far has been fulfilling." To incoming freshmen his advice would be to work towards a goal that is bigger than yourself. Get involved in

Workshop lets health professions students practice respectful teamwork

In January, University of Findlay College of Pharmacy P5 students traveled to and attended an all-day interprofessional event with physician, nursing and physician assistant from six universities across Ohio at the Ohio University Dublin and Cleveland campuses. More than 450 students engaged in activities that encouraged mutual respect and collaboration among health care providers. The program topic was [*Caring for the Underserved in an Interprofessional and Interpersonal Way*](#) designed from the National Center for Interprofessional Practice and Education. Students from each discipline learned about and from each other about their strengths, potential contributions as a professional and as a person to better serve future patients. The goal was to introduce high level patient scenarios to students to problem solve as a member of a health care team caring for underserved patients. The activities in which the

ability. Don't be afraid to join clubs or an organizations as soon as you arrive, time flies and it waits for no one, so get started now! Lean on your peers and trust in your own abilities; the journey towards success is waiting for you.

Faculty Feature: Charles Mosler, Pharm. D.

Dr. Charles Mosler is from Wapakoneta and received his Doctor of Pharmacy degree from Ohio Northern University in Ada, Ohio. He is a Certified Geriatric Pharmacist and Fellow of the American Society of Consultant Pharmacists. At the University of Findlay, Charlie teaches in the Gastrointestinal, Endocrinology, Cardiovascular, Immunology, and NeuroPsych disease state modules, as well as the Application of Pharmacy Practice (Capstone) module. He also co-coordinates the Pharmacy Practice Skills labs and teaches in the

care givers through collaborative practice to achieve optimal patient outcomes. This learning exercise prepared our students not only for their APPEs but also for their bright futures as health care team members. [READ MORE](#)

UF Pharmacy Faculty Member Completes Year as Ohio Pharmacist Association President

Associate Dean of Operations and Effectiveness and Chair and Associate Professor of Pharmaceutical Sciences, Ryan A. Schneider, R.Ph., Pharm.D., Ph.D., recently completed his one-year term as Ohio Pharmacists Association (OPA) president and stepped into the role of immediate past president. During his term, several goals he set for the organization upon taking the office were realized, including the passage of Ohio Senate Bill 265 which gave provider status to

Charlie continues to practice as a consultant pharmacist for about 200 local nursing home residents and works for a local long-term care pharmacy. Charlie is currently the coordinator of SimMan 3G education within the College of Pharmacy and assists with teaching pharmacotherapy to the Physician Assistant students. He is also a preceptor of PharmD students in academia. His areas of interest include geriatric pharmacotherapy, long-term care, medical missions, and the use of high-fidelity simulation in pharmacy education. He and his wife Alison, also a pharmacist, enjoy traveling and have participated in numerous medical mission trips around the world. Their 12-acre hobby farm between Ada and Bluffton along with their 10 and 8 year old sons keep them busy. When asked what he enjoys most about UF he stated "UF is a great fit for me because I've been able to dabble in lots of different parts of the curriculum, and I've been able to work with awesome coworkers and inquisitive students."

Upcoming Dates/Events:

Elective courses lead to unique career path

“As a pharmacy student, I saw the MMSU courses as an opportunity to develop a new set of skills and gain a deeper level of understanding of the drug development process and pharmaceutical industry. I believe that these medical writing and clinical trial disclosures courses are extremely valuable options for students interested in exploring nontraditional career options for pharmacists within pharma. For me, these courses allowed me to identify my interest in the nuances and challenges of regulatory submissions as a career, while further developing my technical writing and written communication skills. Now as a medical writer at MMS, I am gaining

building a solid foundation in medical communications.” – Gyen Musgrave, Medical Writer, MMS Holdings (Canton, Michigan)

About MMS

MMS is an award-winning, data-focused CRO that supports the pharmaceutical, biotech, and medical device industries with a proven, scientific approach to complex trial data and regulatory submission challenges. Strong industry experience and a data-driven approach to drug development make MMS a valuable CRO partner, creating compelling submissions that meet rigorous regulatory standards. With a global footprint across four continents, MMS maintains a 97 percent customer satisfaction rating and was named as the Best Global Biotech CRO in the 2018 International Life Sciences Awards and Most Outstanding CRO in the 2019 Biotechnology Awards.

APPE HIGHLIGHTS

As one of UF's latest grads, Abigail Herrera, recently shared a noteworthy experience from one of her APPE sites. She conducted a Cost Analysis and a Break Even analysis while at Holzer Health System for an anticoagulation clinic. The Break-Even Analysis was done mainly to determine how many patients would be needed to “break even” based on another satellite clinic. One year of data was used from this satellite clinic to conduct both the cost and the break even analyses. [READ MORE](#)

The ARxCH

The Annual Review of Changes in Healthcare (ARxCH) is a student-run Drug Information publication at the University of Findlay that launched in May 2017. The third edition of The ARxCH was just released on May 1st, 2019. The ARxCH reviews various topics that have a clinical impact on pharmacy practice in a
