University of Findlay

AGRICULTURE

AGRIBUSINESS EMPHASIS

Program Overview

Turn your passion for agriculture into a career. The University of Findlay's new Bachelor of Science in Agriculture with an Agribusiness Emphasis teaches you business and leadership through a multi-disciplinary agriculture lens to make a difference in your community and beyond.

The Agribusiness Emphasis builds on our most popular and highly successful animal science and equestrian programs in collaboration with our College of Business and Humanities. It combines a solid agriculture core with premier business training to meet industry needs and support sustainability.

You will study business basics ranging from management to entrepreneurship coupled with applied agriculture concepts such as farm business management and agriculture and livestock marketing. Culminating experiential learning coursework will allow you to put your classroom learning into practice. From the boardroom business decisions to the farm, you'll gain experiences only the University of Findlay can offer.

Enter Ohio's No. 1 industry with endless career paths and high demand from employers. From food science and data analytics to management, education, and large animal operations, every role is in high demand and employers are looking for University of Findlay graduates.

You'll connect with others who share your passion while you prepare for a meaningful life and productive career in agribusiness.

Program Highlights

Our Agriculture-Agribusiness Emphasis blends agricultural sciences with core business management, finance, marketing, and economics. Our focus on agricultural production, supply chain management, data analysis, and farm business, equips students for roles in both corporate agriculture and small business management.

- Two working farms
- 403 campus acres
- Access to 1,000+ animals
- Greenhouses
