August 9 Answers to Questions Regarding COVID Testing

To the UF Community:

Given some questions being submitted, we wanted to share the additional information:

If you need to get a COVID test, a rapid test, PCR test, or home test are all acceptable. Tests are available widely at almost all pharmacies. Additionally, many will waive the cost of the test if your insurance will not cover it. The Cosiano Health Center has a limited amount of COVID tests available, and can only assist if you are unable to secure a test elsewhere.

Any person who will be fully online this fall and not physically present on campus, does not need to submit a negative COVID test if they have not been fully vaccinated. We would still like you to complete the survey though.

Regards,

David Emsweller
